Optional equipment

Give to your boat personal style and more capabilities by choosing from the wide range of genuine Olympic accessories.

Rear cushions
Specially designed and comfortable cushions with stainless steel frame in the back for even more relaxing trips. Sold separately.

Aft cushion
Rest with extra comfort in the aft seats.

CC Cushions
Create a large space for rest and sunbath. Available only in the CC model.

Bench
A rigid bench that offers extra seats. Depending on the position of the console, the bench is installed in front or to the rear.

Openable console
For even easier access to the console space, the openable version of the console is optionally available. Similarly to the standard console, it is ergonomically designed with rubber-grip wheel and rail.

Additionally:

- Inox sun top
- Mooring cover
- Boat cover
- Swivel base for driver's seat
- Cushions for driver's seat
- Handgrips
- Bilge pump
- Rod holders
- Swimming ladder
- Engine bracket

450 Fx 450 CC

OLYMPIC

The 450 series of Olympic Boats is the optimum cost-benefit choice for a boat used for fishing and pleasure.

Like all Olympic Boats models, the 450 series is designed and manufactured with close attention to every detail. The boat's finish is the first to prove the high quality of construction and materials. In terms of safety, the Olympic 450 is unsinkable according to the European standards.

Additionally, the modern design of the V-type hull allows the 450 to run smoothly with small horsepower engines, reducing so the total cost of acquisition and also fuel consumption.

The Olympic 450 is available in two basic editions, the models 450 Fx and 450 CC. At the same time, you have the option to adjust each model to your own personal requirements, as indicatively displayed in these pages.

Furthermore, the 450 series is offered with console in the standard edition for additional comfort, while there is alternatively the option for tiller handled engine for lower cost. And of course, every 450 is covered with the 5-year hull warranty of Olympic Boats for maximum assurance.

Olympic 450. Never before had a so small boat so much to offer!

In the bow of the 450 CC model and under the front and side seats, a large, unified storage space is available with locking option. In the 450 Fx model, the side seats are missing, giving so more free space in the deck. ▶

Standard edition

450 Fx
Additional layout with console to the front and driver's seat

450 CC
Additional layout with console to the back and bench

A large storage space is available under the stern seat. Also, the anchor light is stored under the seat when not in use. The side shelves for small personal accessories is an additional detail that makes the Olympic 450 to stand out from the competition. ▼▶

The ergonomically designed and robust console makes the journey comfortable for the driver by providing protection from the wind. At the same time, adequate space for the boat's instruments is provided, while the locker acts as storage space and provides easy access to the console's internals. ▼▶
